Specializations

- High Performance Training
- Racquet Stringing

Playing History

Tennis has been a part of my life ever since I was born. My father, a former ATP professional, grew up in England surrounded by a family who loved tennis. Their love for the game has been passed down to me and has been a part of my everyday life for over the past ten years. Working with my dad over the past decade has not only allowed me to achieve the ability to play at the top of my high school team, but also continue my career in college. Previously playing Division III tennis, it is now my goal to use the remainder of my NCAA eligibility at a Division I university and continue my career after college.

Teaching Experience

I will be entering my third year as an assistant tennis instructor at the Norris Center in 2023. I have been given the opportunity to coach several players at NRC ranging from young beginners, to intermediates, our NITTL teams, adult drills, as well as our High Performance groups. In addition to coaching at the Norris Center, I have worked with many junior players at Eagle Brook Country Club since 2020.

My Tennis Philosophy

I thoroughly believe in being able to use hard work to surpass those with natural ability. No one is born a great tennis player, and any person can reach a high level of play through consistently working hard.
